A close-up photograph of a wooden deck. The deck is made of light-colored wooden planks, some of which are laid diagonally. A thick, light green horizontal banner is superimposed across the middle of the image. On the right side of the deck, a metal ring is visible, attached to a wooden beam. The background shows more of the deck and a dark, possibly water-filled area at the bottom right.

Why Choose Wood?

A scenic view of a park featuring a wooden deck in the foreground, a body of water, and lush green trees in the background under a cloudy sky. A semi-transparent green banner is overlaid across the middle of the image, containing the title text.

Durable Wood Products for Outdoor Applications

A photograph of a man in a blue polo shirt and white pants standing on a wooden deck. The deck is surrounded by lush green trees and foliage. A wooden pergola structure is visible on the right side of the deck. The scene is brightly lit, suggesting a sunny day. A semi-transparent green banner is overlaid across the middle of the image, containing the text "Life Cycle Analysis".

Life Cycle Analysis

A photograph of a park in autumn. In the foreground, a curved path made of light-colored wooden planks is scattered with fallen yellow and orange leaves. To the left of the path is a low wooden border containing several large, smooth, greyish-brown stones. Several birch trees with white bark and yellowing leaves are scattered throughout the scene. In the background, a modern building with a green roof and large windows is visible under a clear blue sky. A person's arm and hand are partially visible on the right edge of the frame.
